JS

A diagram showing a resistor (represented by a rectangle with diagonal lines) connected to a voltage source (represented by a circle with 'dB' inside). An arrow labeled '5A' indicates the current flowing through the resistor.

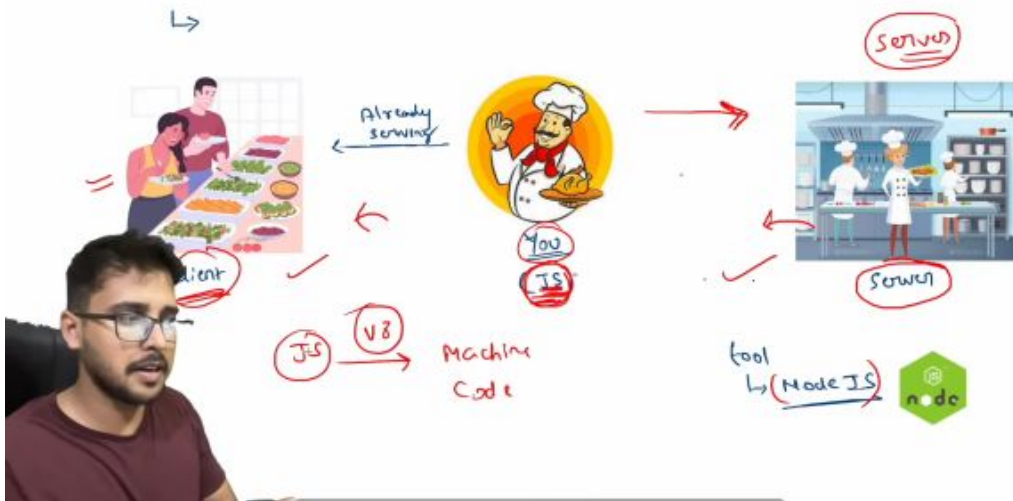

req Backend
← req

Handwritten diagram showing a table with columns 'id' and 'name'. Below the table is a 'Buy now' button. To the left of the button is a 'Count' label with arrows pointing to a circle and a square. Below the circle and square are the numbers '50' and '59' respectively, underlined.

Layman Example to understand Node.js & V8 Engine
